WIRE BASKET SPOOL

www.madewithless.in

About Us

Madewithless is a professional engineering company involved in manufacturing high precision wire products for Industrial and Domestic applications.

Our vision is to provide recyclable wire products to replace plastics in packing and other applications.

Our Product helps to reduce carbon footprint and bring Green solutions to our customer requirements.

Our high quality products will enhance product , process performance and safety compared with existing products available in the market. We also intend to provide cost effective Green solution for Sustainable future.

Our unmatched quality and on time delivery will meet best global standards in the industry.

Wire Basket Spool

- Metal Wire Basket Spool, also known as bobbin, metal spool, wire reel, I-shaped wheel, and welding wire shaft, is a versatile accessory used for winding wire products.
- Constructed from steel metal, it features a simple structure, high temperature resistance, lightweight design, and is easy to wind.
- This spool is an ideal accessory for wire-related industries such as welding wires, cables, and 3D printing wires.
- Our metal reel is manufactured with high-quality materials, offering benefits like green, low-carbon, recyclable, and biodegradable properties.
- Each spool meets international standards and has been trusted and praised by customers due to our consistent quality efforts.
- With independently developed production equipment, we now operate several semi-automatic and fully automatic production lines to enhance efficiency and meet diverse customer needs.

Quality Inspection

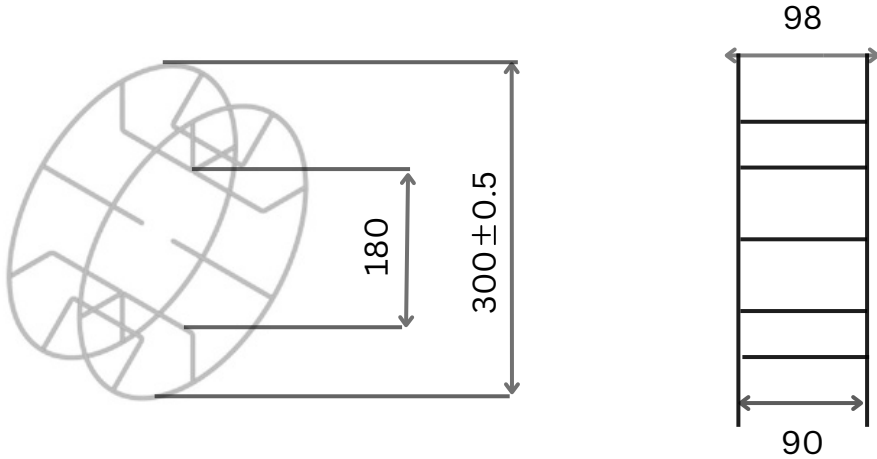

- Visual Inspection
- Dimensional Accuracy
- Weight Check
- Structural Integrity
- Size of the Circular ring
- Welding Strength and Flatness of the wire basket spool

Wire Basket Spool

(Welding Wire Basket)

Model No

B 300

Note : All the Dimension are in mm

Material	Dia	Weight	Load	Application
Mild Steel	4MM	0.335 kg	up to 18 kg	MIG Wire Stainless Steel Wire Flux Cored Wire Aluminium Wire

Finishing :

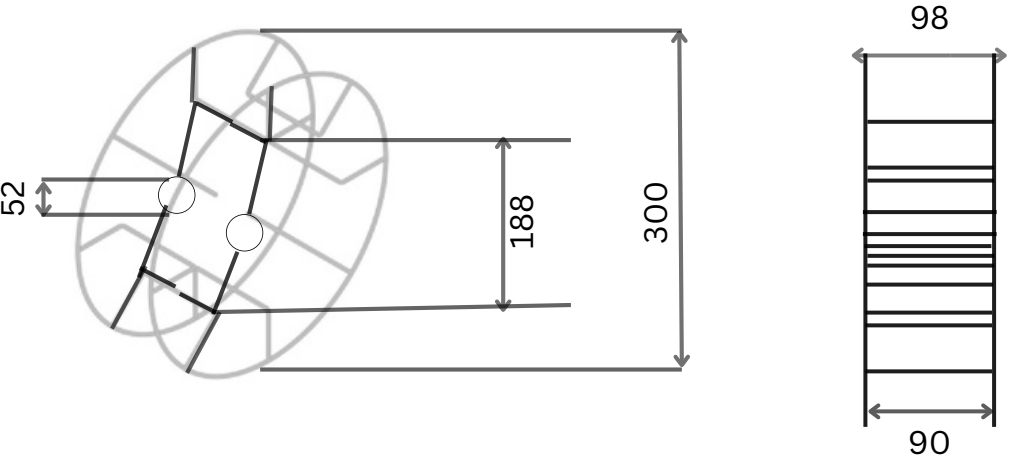

- EZ - Electro Galvanized Coating
- PC - Powder Coating

Wire Basket Spool

(Welding Wire Basket)

Model No

BS 300

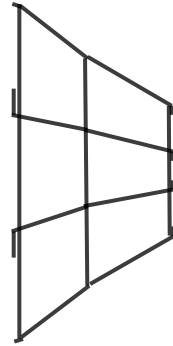

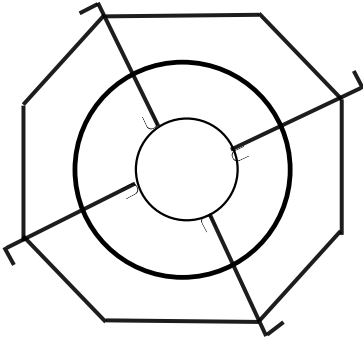

Note : All the Dimension are in mm

Material	Dia	Weight	Load	Application
Mild Steel	4MM	0.600 kg	Up to 18 kg	MIG Wire Stainless Steel Wire Flux Cored Wire Aluminium Wire

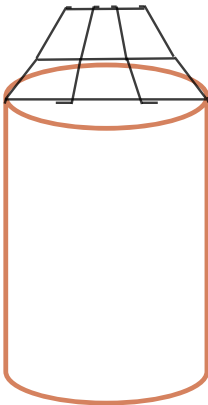

Finishing :

- EZ - Electro Galvanized Coating
- PC - Powder Coating

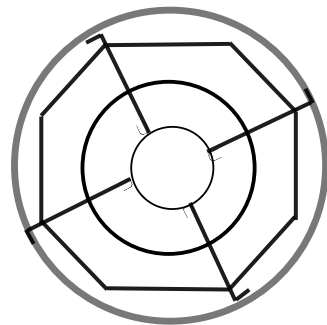

Pail Pack Inner Cone

Material	Dia	Size	Application	Finishing
Mild Steel	4MM	Customized	Pail Pack MIG Welding Wire	EZ -Electro Galvanized Coating PC - Powder Coating
